EDUCATION

2017 - 2020

Systems analyst

Instituto Universitario de
Tecnología para la informática
(IUTEPI)

SKILLS

- JavaScript
- Typescript
- React
- Nextjs
- Python
- Angular
- Vue
- Astro
- Flutter
- React Native
- Express/Fastify
- Nestjs
- Docker

PARQ

Colombia (Agosto 2025 - Present) - Fullstack Developer

- As a fullstack developer, I am responsible for improving and maintaining the backend microservices built with NestJS.
- I work with micro-frontends, building and maintaining a variety of frontend applications across Angular, Next.js, and React Native

Fithub

Colombia (August 2024 - June 2025) - Frontend Developer

- Responsible for the continuous support and enhancement of a dynamic e-commerce website.
- I implemented new features and optimized user experience and site performance.
- I used React and Tailwind CSS (with Twin Macro) and contributed to SEO strategies to improve the platform's visibility.

Monoma

Colombia (March 2024 - July 2024) - Frontend Developer

- Provided support for the development and maintenance of multiple web projects.
- I built applications with Next.js and React, using Tailwind CSS to create dynamic and responsive user interfaces.
- I actively participated in the testing process to ensure software quality.

ASP Consulting

Panama (May 2023 - March 2024) - React Native Developer

- Responsible for the technical support and maintenance of point-of-sale mobile applications.
- I worked with React Native for cross-platform development and integrated with native SDKs via custom bridges.

Tauros

(November 2019 - February 2023) - Frontend Developer

- Responsible for the operation and optimization of a cryptocurrency website.
- I developed the frontend with React and Material UI.
- I dedicated several months to mobile development with React Native to ensure a consistent user experience.
